SUMMARY

Technology leader with 8+ years turning technology into business results. Heads technology for a six-company group of around 1,200 employees, setting IT strategy, policy, and spending priorities with the CEO and Board. A hands-on engineering background in Odoo ERP, web platforms, and infrastructure, with in-house products shipped from scratch, means decisions are grounded in how systems are actually built.

KEY RESULTS

At PT Multi Kencana Niagatama:

- Built a flagship loyalty program to grow sales. The company needed to keep installers loyal to its products. Led the in-house build of a nationwide loyalty program for them, now rolling out (gebyar.multi-kabel.com).
- Cut yearly IT asset spending by ±70%, from ±Rp 1.2 billion to ±Rp 350 million. Covers CCTV, laptops, printers, servers, and licenses. Put idle servers and equipment back to work instead of buying new, with no disruption to operations.
- Led the decision to stop paying for Odoo Enterprise licenses. Moved the group to self-hosted Odoo Community with no disruption to operations, ending yearly license fees while keeping every business function.
- Brought all IT support into one system. IT requests ran on email forms and paper. Built an in-house IT Service Management System for tickets, server monitoring, maintenance, and assets, now the only IT help channel (ticketing.multi-kabel.com).
- Helped employees solve problems on their own. Staff were unsure of SOPs and technology, with nowhere to find solutions. Introduced an in-house AI assistant they can ask anytime (ai.multi-kabel.com).
- Reduced data risk by bringing systems under company control. Moved to company-owned servers with routine backups and backup servers, cutting cloud rental costs, as part of a digital transformation to automated, structured processes.

PROFESSIONAL EXPERIENCE

Management Information Systems Manager

PT Multi Kencana Niagatama, Jakarta Barat | Jan 2026 – Present

Head of technology for the group, setting direction with the CEO and Board of Directors. Group companies: PT Multi Kencana Niagatama, PT Nusantara Electric, PT Pulung Cable Indonesia, PT Indoreka Sukses Mandiri, PT MKN Global Niagatama, PT Terang Kabel.

- Decide the group's technology direction: choose what is adopted across all six companies and drive it from selection to full rollout.
- Shape IT strategy with the CEO and Board: turn business goals into an IT roadmap, investment priorities, and measurable results.
- Set group IT policy: written SOPs for access, passwords, and devices, approved by the Board, plus technology standards for every company.
- Lead digital transformation: ERP, in-house platforms, automation, and AI, standardized across the group.
- Run the Management Information Systems function: lead a team of 4 (1 supervisor, 2 IT support, 1 full-stack developer), select and manage vendors, and safeguard security and continuity for around 1,200 employees.
- Report monthly to the Board: IT performance, risks, and priorities that management relies on for decisions.

IT Operation – Odoo ERP Legacy

PT Paragon Technology and Innovation (ParagonCorp), Jakarta Selatan | Dec 2024 – Nov 2025

ParagonCorp is a leading powerhouse in Indonesia's cosmetics and personal care industry.

- Managed daily operations and maintenance of legacy Odoo ERP systems supporting business continuity at national scale.
- Owned monitoring, backup, and incident-response routines to prevent data loss and minimize downtime.

- Acted as escalation point for end-user issues and coordinated patches and infrastructure upgrades with development teams.

Founder
PT Nusa Garda Teknologi | Jun 2024 – Nov 2024
Independent technology company providing Odoo ERP implementation services.

- Founded and ran the company as a single-owner PT (PT Perorangan), handling all client work directly.
- Implemented Odoo ERP for 3 client companies.

Senior Odoo ERP Developer
PT Akselerasi Teknologi Investama, Jakarta Pusat | Oct 2020 – May 2024
IT consulting firm delivering technology solutions for business growth and digital transformation.

- Led ERP delivery on client projects: stakeholder requirement gathering, technical specification, development, and go-live.
- Led migrations of legacy systems to the latest Odoo ERP version, ensuring data integrity and minimal downtime.
- Mentored developers through code reviews and performance optimization, raising delivery quality across the team.

Product Developer
PT Trimitrasis Consulting, Jakarta Barat | Mar 2019 – Sep 2020

- Developed Odoo ERP modules and product features to meet client requirements and improve user experience.
- Debranded Odoo ERP into the company's own product system.
- Worked with marketing, design, and engineering teams to define specifications, timelines, and release scope.

Odoo ERP Developer
Vitraining, Bandung | Mar 2018 – Feb 2019

- Developed and customized Odoo ERP modules with Python and XML to improve client business workflows.
- Maintained Odoo ERP applications (backups, performance monitoring, troubleshooting) and supported legacy version migrations.
