~/profile

Technology leader with 8+ years turning technology into business results. Heads technology for a **six-company group of 1,200 employees**, setting IT strategy, policy, and budget with the CEO and Board. A hands-on engineering background in **ERP (Odoo), web platforms, and infrastructure**, with in-house products shipped from scratch, means decisions are grounded in how systems are actually built.

01 Key Results

3× REVENUE TARGET
Revenue target tripled — built and ran a national-scale customer loyalty program (`loyalti.multi-kabel.com`) in-house, end to end, instead of buying a platform.

98 USERS MIGRATED
Zero-downtime ERP migration — moved 98 licensed users across 4 group companies from Odoo Enterprise to self-hosted Odoo Community, with full business functionality retained.

6 mo TO PRODUCTION
In-house IT Service Management platform — designed and shipped `ticketing.multi-kabel.com` in 6 months, replacing a commercial ITSM product; now the company's primary support system.

80% UNDER VENDOR QUOTE
Network infrastructure rollout — delivered a full network rollout with internal manpower at 80% below the vendor's proposal.

On-prem SELF-MANAGED
Cloud to on-premise migration — moved cloud-hosted workloads to a self-managed stack (Docker, Nginx, Linux) while keeping availability and control.

02 Professional Experience

Management Information Systems Manager

PT. Multi Kencana Niagatama

Head of technology for the group, setting direction with the CEO and Board of Directors.

`Multi Kencana Niagatama` `Nusantara Electric` `Pulung Cable Indonesia` `Indoreka Sukses Mandiri` `MKN Global Niagatama` `Terang Kabel`

- **Decide the group's technology direction** — choose what is adopted across all six companies and drive it from selection to full rollout.
- **Shape IT strategy with the CEO and Board** — turn business goals into an IT roadmap, investment priorities, and measurable results.
- **Set group IT policy** — technology standards, budget allocation, and implementation priorities for every company.
- **Lead digital transformation** — ERP, in-house platforms, automation, and AI, standardized across the group.
- **Run the Management Information Systems function** — build and lead the team, manage vendors, and safeguard security and continuity for 1,200 employees.
- **Deliver executive insight** — reporting and data that management relies on for daily and strategic decisions.
